

LONESTAR CRUSHERS

CRUSHERS | SCREENERS | SERVICE | PARTS

GEORGETOWN, TEXAS

ABOUT US

Since 1999 Lonestar Crushers, LLC has assisted customers in a multitude of industries including construction, aggregate, demolition, mining, oil and gas, building, landfill, sand and gravel, recycling, and waste management. During this time we have provided material handling equipment for rent, sale, and lease-to-own options. We continue to add to our elite fleet of crushing and screening equipment to serve our clients and their needs. We're proud to service clients located in Texas, Oklahoma, Missouri, Louisiana, and Arkansas for equipment, service, and parts needs.

ASSOCIATIONS WE SUPPORT:

- Texas Aggregates & Concrete Association
- Associated General Contractors of Texas
- Oklahoma Aggregate Association
- Greater Austin Contractors and Engineers Association

SERVICE AND PARTS

Reduce Downtime

There is nothing more frustrating or costly than having poorly operating, malfunctioning, or inoperable machinery. It's our goal to have your equipment up and running as quickly as possible. We are proud to offer exceptional service and support to our customers. Our team consists of some of the most experienced screening and crushing equipment service technicians in the country. Not only do we refurbish used machines in house, we also have multiple service crews for on-site maintenance and repair. We have also invested in a large repository of parts and accessories from leading manufacturers to reduce the wait time and get these products up and running as soon as possible.

WHAT'S THE RIGHT EQUIPMENT TO FIT YOUR NEEDS?

Our experienced staff can determine the best products to help you complete your project. Additionally, demos are available to provide our customers the opportunity to familiarize themselves with the equipment prior to purchasing or leasing. We own and maintain a variety of quality new and pre-owned machinery including, but not limited to, mobile cone crushers, jaw crushers, screeners, scalpers and stackers.

CRUSHERS

Lonestar Crushers offers for sale or lease aggregate machinery that can handle your toughest rock processing conditions. Our mobile crushers include Jaw, Impact, Cone, Buckets and Wheeled.

OUR MANUFACTURERS

SANDVIK - Always a global leader, Sandvik expanded its product range a few years ago after acquiring Extec and Fintec, to become the leading manufacturer of mobile crushing and screening equipment. Sandvik has long been known for their high performance products, which perfectly match innovation with reliability. Lonestar Crushers is proud to be a long running Sandvik distributor in the USA, selling and leasing Sandvik crushers, mobile screens, as well as parts.

PORTAFILL - Portafill's mobile screeners are designed with portability and durability in mind. Portafill products are known for being high quality, compact, and easy to set up. Their line includes conveyors to complement their mobile crushers, screeners and wash systems.

INERTIA - Inertia Machine is a manufacturer of portable aggregate crushing and screening equipment with a fierce determination to minimize customer costs. Inertia focuses on crusher efficiencies and overall cost of ownership. Their strategy is to improve, innovate and analyze our products in light of disciplines such as physics, dynamics and metallurgy.

MB CRUSHER - An industry leader in manufacturing crusher buckets and screening buckets, MB has revolutionized the world of crushing, demolition, and recycling. Their products are known to enhance a crusher's mobility and flexibility that's needed to overcome some tough projects where being on the move is most important.

We offer quality pre-owned/refurbished machinery. Call us today and we can locate a machine to match your budget!
